USB INTERNET SPEAKERPHONE

The USRobotics USB Internet Speakerphone works with the powerful Skype Voice-over-Internet application to enable "hands-free" and toll-free calls around the world. Simply install Skype software and plug the Internet Speakerphone into a USB 1.1 or 2.0 port to make free phone calls to any Skype user world-wide. Powerful echo cancellation technology assures high quality calls. Convenient volume and mute buttons allow you to manage your conversation without accessing the computer application.

USRobotics®

Call the world for free – hands free!

Free Calls to Skype Users Anywhere	Now you can call anywhere for FREE! Simply install Skype software, plug in the USRobotics USB Internet Speakerphone and dial/connect to any other Skype user in the world.
Compatible with Skype Telephony Services	• Skype Certified to work with the Skype Voice-over-Internet application • Makes internet telephony as simple and comfortable as standard telephone calling
Excellent Voice Quality	• Integrated echo cancellation and noise reduction technology delivers life-like conversation quality • High-fidelity speaker
Easy to Install and Use	• Simple to install – Supports Plug-and-Play so when it is attached to a computer's USB port it automatically installs • USB port powered – No external power supply needed • Portable – Easy to carry around, perfect for traveling • Ergonomically designed for intuitive operation
Broad Compatibility	• Supports Windows 2000 & XP operating systems • Compatible with USB 1.1 and USB 2.0 ports
