

# Statement of Work

Extended Warranty

InfraStruXure® Central

## 1.0 Executive Summary

The InfraStruXure® Central Extended Warranty provides peace of mind and product failure protection beyond the Standard two year APC warranty period. Once the Standard 2 year APC warranty period for your InfraStruXure® Central expires, should your product fail, you expose yourself to lack of visibility of your physical Infrastructure.

With the purchase of the APC InfraStruXure® Central Extended Hardware Warranty, you will experience a seamless extension of the Standard two-year APC warranty period for up to an additional three years, depending on coverage purchased. Any customer who has an APC InfraStruXure® Central, which falls out of warranty, must first purchase warranty coverage from the date the previous warranty ended up to the current date and then must purchase additional hardware warranties to extend their coverage.

The APC InfraStruXure® Central Extended Hardware Warranty provides replacement of your product and/or user-replaceable parts. You also receive several additional benefits, such as 24 X 7 APC Technical support, Service Entitlement support and next business day shipment in NAM only. Standard shipping methods apply in LAM, EMEA, APJ, and GCN regions.

## 2.0 Features & Benefits

### Table of Contents

- 1.0 Executive Summary
- 2.0 Features & Benefits
- 3.0 Details of Service
- 4.0 Assumptions
- 5.0 Scope of Responsibility
- 6.0 Terms & Conditions

Features	Benefits
Up to Three Years of additional product failure coverage	Provides peace of mind and complete factory warranty protection for the entire designated product service life.
24 X 7 Customer Service Support with Toll Free Call-in Telephone Number	Customers are provided with a toll free number. Calls are handled 24-hours a day, 7 days a week by call center professionals.
8 X 5 Customer Service Support for LAM, APJ and GCN	Customers are provided with a technical support number, handled during standard business hours by call center professionals.
Next Business Day Shipment in NAM only	Customers receive upgraded shipping status, which means, next day shipment of the replacement InfraStruXure® Central or user replaceable parts.
Standard shipping methods apply in LAM, APJ, EMEA, and GCN	Customers receive upgraded shipping status, which means, standard shipment of the replacement InfraStruXure® Central or user replaceable parts.
Service Entitlement Assistance and Service Warranty Certificate	Customers receive assistance from the Service Entitlements team to make sure their product is properly recorded. An E-mail Service Entitlement Certificate provides a detailed record of the service registration, along with the service expiration date.

### 3.0 Details of Service

The specific activities of this service are listed below. For each item, APC will perform the work described.

Warranty	
Activities	Description
<b>Create Warranty Entitlement</b>	The APC Entitlements team will assist the customer in the registration process. APC will create the warranty extension service entitlement and provide the customer with a Service Certificate via e-mail.
<b>Provide Customer Telephone Support</b>	APC will provide 24 X 7 Technical telephone support for NAM and EMEA. 8 X 5 technical support is available in LAM, APJ, and GCN regions.
<b>Provide Extended Hardware Warranty Redemption</b>	The Extended Hardware Warranty replacement of your product or user replaceable parts.
	Should warranty redemption be necessary, APC will provide, at their discretion, a replacement unit or user replaceable parts.
	APC will ship out the replacement next business day (NAM only) and provide a prepaid return shipping label for the used InfraStruXure® Central.

### 4.0 Assumptions

The successful performance of the tasks defined is based on the following key assumptions:

- The customer has purchased an Extended Hardware Warranty for an APC InfraStruXure® Central, which is still within the standard two-year factory warranty defined by APC.
- Any customer who has an APC InfraStruXure® Central, which falls out of warranty, must first purchase warranty coverage from the date the previous warranty ended up to the current date and then must purchase additional hardware warranties to extend their coverage.
- APC will provide guidance on what the product's service life span limits are at time of purchase.

The following items are outside the scope of this warranty. Please contact your certified APC sales representative for more details.

- Non-APC Products
- InfraStruXure® Manager
- NetBotz Central

## 5.0 Scope of Responsibility

The items stated here are responsibilities to and from both APC and customer.

### 5.1 APC RESPONSIBILITIES

- Provide APC Service Certificate.
- Provide 24 X 7 telephone technical support for NAM and EMEA. After hours technical support is available in English only.
- Provide 8 X 5 telephone technical support in LAM, APJ, and GCN regions.
- Provide 'next business day' shipment (NAM only) of InfraStruXure® Central or user replaceable parts, at no extra charge to and from the customer's site.
- Provide standard shipping methods of InfraStruXure® Central or user replaceable parts, at no extra charge to and from the customer's site in LAM, APJ, GCN and EMEA.

### 5.2 CUSTOMER RESPONSIBILITIES

- Provide the InfraStruXure® Central product model and serial number and registration information.
- Contact APC customer service support in case of occurrence of issue.
- Provide a point of contact during time of service.
- Provide a point of contact for receipt of units and components.
- Return used InfraStruXure® Central using prepaid APC shipping label

## 6.0 Terms and Conditions

APC standard Terms and Conditions apply.
