1.0 Executive Summary

The StruxureWare™ Central Building Management Configuration service provides you with the proprietary documentation to allow your building management professional to tie the systems together by generating slave addresses for devices and configuring register addresses.

This service provides the customer with the assurance that their building management expert has what is needed to link to the StruxureWare Central appliance. This service is one of the options available within the StruxureWare Management Software Configuration Suite of services offered by Schneider Electric.

Contact a Schneider Electric sales representative for more information on services designed to manage the data center from installation and configuration, to training and software maintenance, as well as customizable services that meet unique software integration or enhancement needs.

2.0 Features & Benefits

Features	Benefits
Building Management Configuration	Schneider Electric will enable Building Management module on the StruxureWare Central. This ensures the device currently monitored by StruxureWare Central can also be monitored from the customers own Building Management system.
Professional Expertise	Ensures quality by using the Schneider Electric Certified Engineers with several years of industry experience.

3.0 Details of Service

The specific activities of this service are listed below. For each item, Schneider Electric will perform the work described.

StruxureWare Central Building Management Configuration	
Activities	Description
Activating Building Management	The Schneider Electric Certified Engineer will enable the Building Management by entering the customer purchased license keys.
Create Slave Addresses	Schneider Electric will together with the customer identify and create slave address for the devices that should be monitored by the customer Building Management system.
Generate Register Maps	Schneider Electric will in co-operation with the customer generate register maps for each device to be monitored.
Export Register Maps	Schneider Electric will export all created register maps, so they can be implemented on the customers own Building Management System by the customers Building Management System expert.

4.0 Assumptions

The successful performance of the activities defined is based on the following key assumptions:

- Schneider Electric will perform all services during the Schneider Electric business hours (Monday through Friday from 8:00 AM to 5:00 PM weekly, local time).
- The scheduled on-site work time will be discussed and approved between Schneider Electric and the customer.
- The customer will ensure that all Schneider Electric, NetBotz, and third-party devices are installed and can be connected to the Schneider Electric private LAN network.
- The customer will ensure that all cable runs between rooms and/or floors are run prior to arrival.
- The customer will ensure that the StruxureWare Central has been configured to the StruxureWare Central Basic Administration service or equivalent.

Additional services are offered as a natural expansion to this Statement of Work:

- StruxureWare Central Alarm Threshold Configuration
- StruxureWare Central Alarm Action Configuration
- StruxureWare Central Alarm Profile Configuration
- StruxureWare Central Remote Monitoring System Configuration
- StruxureWare Central Network Management System Configuration
- StruxureWare Central Surveillance Configuration

5.0 Deliverables

Configuration deliverables to include:

- Schneider Electric will arrange a pre-assessment phone meeting.
- Schneider Electric will meet with the customer on the morning of the service to review the deliverables.
- Schneider Electric will register and activate all purchased license keys.

6.0 Exclusions

The following items are outside the scope of this service offering. They can be provided through an alternative Schneider Electric service. Please contact a Schneider Electric sales representative for further details.

- Project management
- Firmware upgrades
- Configuration of the customers network for the use of the application
- Training
- Perform testing on any 3rd. party Building Management System.

7.0 Scope of Responsibility

The items stated here are responsibilities of both Schneider Electric and the customer.

7.1 SCHNEIDER ELECTRIC RESPONSIBILITIES

- Schedule qualified engineer to perform service.
- Manage and coordinate scheduling of StruxureWare Central Building Management Configuration Service.
- Ensure installation is performed to manufacturer specifications.
- Identify and document open Schneider Electric and/or customer issues.

7.2 CUSTOMER RESPONSIBILITIES

- Identify dates and times when the StruxureWare Central Building Management Configuration service can be conducted.
- Schedule the attendance of minimum one person for the duration of the service that will interact with the StruxureWare Central on a regular basis.
- Indicate to Schneider Electric any security clearance requirements when ordering service.
- Provide a point of contact during time of service.
- Provide access to the data center
- Provide Schneider Electric with site-specific policies that need to be adhered to during the visit.
- Provide a point of contact at the completion of service to sign off on completed work.

8.0 Project Work Details

The following details of the project specify the schedule, location and successful completion criteria.

8.1 SCHEDULE

Actual set dates will be discussed and approved between Schneider Electric and the customer.

8.2 LOCATION

The configuration service will be performed on-site at the location indicated to Schneider Electric by the customer by the time of ordering the service.

8.3 COMPLETION CRITERIA

Schneider Electric is expected to have finished its written duties when any of the following occurs:

1. Schneider Electric completes all the tasks described in the Details of Service of this Statement of Work.
2. This service and Statement of Work are terminated for other reasons, within the Schneider Electric Customer Agreement.

9.0 Pricing

The StruxureWare Central Building Management Configuration service (WNSC010109) is a component of the standard fixed-fee StruxureWare Management Software Configuration Suite. Pricing for the service components contained within a solution will be aggregated under StruxureWare Management Software Configuration Suite (WNSC01). Please contact your Schneider Electric sales representative for further details.
